

## ORANGE® 3IN1: THE NEW SOLABIOL® REVOLUTION TO MEET THE NEEDS OF ALL GARDENERS

Building on the success of the flagship Soil Insects and Colorado Beetle products launched in 2020, based on Spinosad, SBM is continuing its revolution in the biocontrol \*\* offer in 2021 by offering the **first total certified organic treatment on the market: ORANGE® 3 in 1.**

SBM wishes to support new gardeners, more attentive to responsible gardening, with a solution that is simple to use, effective and of natural origin.

## INSECTS, MITES, DISEASES: 1 ONLY PRODUCT AND IT'S OVER!

This total Solabiol® treatment is a triple action solution, with an active ingredient of plant origin, which acts by contact for a rapid effect. It targets a wide range of pests and diseases on a wide variety of vegetable crops, fruit trees, roses, ornamental crops, trees and shrubs, for a total of 85 uses.

For the first time on the garden market, an innovative formulation based on orange essential oil, an active substance of natural origin, is available in a concentrated solution. Because it is unique, this range, composed of a reference dedicated to vegetable gardens – fruit trees, and a reference dedicated to ornamental, will bear a name that embodies this revolution: ORANGE® 3in1.

## EXPRESS EFFICIENCY IN 3 HOURS \*\*\* FOR 85 USES

Curative solution, ORANGE® 3 in 1 allows to fight effectively with visible effects in only three hours after the treatment! Its fungicidal (powdery mildew, mildew, rust, etc.), insecticidal (scale insects, aphids, etc.) and acaricidal actions give it the greatest number of uses to date and is easily accessible to all gardeners.

This new generation total treatment is the very essence of the Solabiol® brand: a concentrate of innovation and modernity.

\* Usable in Organic Agriculture in accordance with current European regulations.

\*\* Biocontrol product, under articles L.253-5 and L.253-7 of the rural and maritime fishing code.

\*\*\* 3 hours maximum if the conditions of use are respected.
